PROPRIETARY, LIMITED

**324-330 Pitt Street  
Sydney**

And  
**391 BOURKE STREET  
MELBOURNE**

*We desire to draw the attention of our intending purchasers  
to the following points:*

**T**HE illustrations given herein are to show the designs of the articles stocked, and are no guide to their respective sizes, which can, however, be determined by reference to the measurements which are given in most cases.

You will also please note that fittings marked "Copper Bronze" or "Oxidised Copper" are made of Brass Tube, coppered over, and therefore do not come under the fittings prohibited by the Insurance Companies for acetylene.

Purchasers are reminded that when using inverted burners globes must not be screwed too tight. Allow sufficient play for expansion by heat.

The attention of those who desire to use inverted fittings for acetylene is called to the price of adapter necessary, which is quoted among accessories.

Most of the fittings are quoted separately, but price complete can easily be obtained by referring to Price List of Accessories for Burners, Blocks, &c., and to pages 23 to 27 for Globes.

Prices are subject to fluctuation, and may be altered without further notice.

We issue separate catalogues for

- (a) GRATES, MANTELPieces, TILES AND GAS STOVES.
- (b) SANITARYWARE AND ELECTRICWARE.
- (c) ELECTRIC FITTINGS.

In this Catalogue we have spared no pains to place those unable to visit our showrooms as nearly as possible in the same position as those in the city, by placing before you a complete selection of the latest designs, together with prices of all accessories, and feel sure our effort will command the generous support and continued patronage of our numerous clients.

**JOHN DANKS & SON**
